Tutoring Experience

For the past seven years, I've been working with students from a variety of curricula, including IB, A-Level, and IGCSE, helping them master challenging chemistry concepts. My students consistently achieve top marks, with many gaining entry to prestigious universities. I focus on delivering high-quality, personalized lessons that cater to each student's individual learning needs.

In addition to teaching IB Chemistry, I also tutor AP and IGCSE students, guiding them through their coursework and exam preparation. Whether it's organic, physical, or inorganic chemistry, my goal is to provide students with the knowledge and confidence to excel in their studies and reach their academic potential.
