Tutoring Experience

Over the past 8 years, I've worked with students preparing for international exams like IB Chemistry and A-Level Chemistry. My approach has helped students secure top grades, particularly in challenging topics like organic chemistry and physical chemistry. I have supported students from the UK, Poland, and other European countries.

Additionally, I have extensive experience helping students with AP Chemistry and SAT Chemistry, focusing on thorough preparation for both exams and coursework. Many of my students have gone on to study at leading universities worldwide, continuing their academic success in the sciences.
