 **Experienced Tutor | Lund University | MSc in Physics**

With an MSc in Physics from Lund University and a BSc in Engineering Physics from Uppsala University, I have 19 years of experience teaching IB, A-Level, and IGCSE Physics. My goal is to make complex ideas accessible and ensure exam success.

Qualifications

Lund University: MSc in Physics (2002–2004)

Uppsala University: BSc in Engineering Physics (1998–2002)

Vetted Tutor

Personally Interviewed

Our tutors go through a rigorous selection process, having been interviewed to assess their teaching skills and subject knowledge. **They have extensive tutoring experience with a track record of success**, helping students achieve their academic goals.

Tutoring Experience

Over the last 19 years, I have worked with students across multiple curriculums including IB, A-Levels, and IGCSE. My teaching expertise lies in physics topics like mechanics, electromagnetism, and thermodynamics. I've had the opportunity to mentor students who have gone on to excel in both academic and competitive exams.

During my career, I have worked closely with students to prepare for their IB and A-Level exams, guiding them through challenging physics concepts and helping them achieve strong results. My extensive experience allows me to tailor lessons to each student's needs, ensuring their understanding of complex topics like quantum mechanics and thermal physics.

In addition to teaching secondary school physics, I have also worked with undergraduate students on advanced physics topics. This experience has provided me with a unique perspective on how to connect basic and advanced concepts, helping students apply what they learn to real-world scenarios and higher-level studies.
